MEDIA ADVISORY

For Thursday, May 14

LOCAL RESIDENTS ADDRESS STATE, FEDERAL OFFICIALS ON WATER ISSUES

WHAT More than 200 Northern Californians are expected to tell state and federal officials how they think the California Bay-Delta system should be managed, part of a 75 day public comment period that will impact the hub of California's water system and one of the largest estuaries in the world.

California's Bay-Delta system supplies drinking water for more than 22 million Californians and irrigation water for the state's \$24 billion agricultural industry. It supports more than 750 plant and animal species, some found nowhere else on earth. Years of conflict among urban, agricultural, environmental and other users have pushed the system to the brink of failure. NORTHERN CALIFORNIANS HAVE A PARTICULAR STAKE IN FINDING A BAY-DELTA SOLUTION, INCLUDING:

- ➔ How will CALFED's plan be coordinated with local agencies and landowners?
- ➔ What kind of assurances will there be about the ability to continue to meet the water needs of Northerners?
- ➔ How much will the solution cost and who will pay?

WHEN Thursday, May 14, 1998
6 p.m. Information Session/Question & Answers
7 p.m. Public Hearing

WHO Local residents, business owners and elected officials
Representatives from state and federal agencies listed below

WHERE The Doubletree, 1830 Hilltop Drive, Redding

The CALFED Bay-Delta Program is a collaborative effort among the state and federal governments and California's leading agricultural, urban and environmental interests to resolve the environmental and water management problems of the Bay-Delta system.
